The Brookside is the economical answer the families that always wanted a three-bedroom home but didn't think they could afford one. This home offers most of the features of the larger McKay - including open-concept great room with fireplace and timbered ceiling, master bedroom with adjoining master bath and walk-in closet, and first-floor laundry - at significantly less cost! Convenience features include the raised kitchen serving counter and the dining area with easy access to the kitchen. Upstairs, there are two additional bedrooms and a bath, plus an open loft which overlooks the great room. Outside, this home features the full-length covered front porch and a rear deck, spacious enough for that summer barbecue.
