

2521 sq. ft.

3 Bedrooms / 2 -1/2 Baths

The Hickory Hills was featured in “Country’s Best Log Homes” and is a fine example of a plan that blends the relaxing rustic charm of a log home with the contemporary touches of today’s lifestyle—giving you more time to enjoy life to the fullest. From the popular open-concept great room with the large ceiling timbers, expansive glass wall and corner fireplace to the walk-around deck, this plan is impressive. The convenient first-floor laundry and pantry, plus kitchen with a large island add to its practicality. The master bedroom features a large master bath and walk-in closet. Upstairs, the spacious loft overlooks the great room and dining area and has two additional bedrooms and a full bath.

A full set of blueprints of this plan is available. Artist's renderings and floor plans may differ slightly from actual blueprints.
