

PLEASANT HILL

2064 sq. ft.

3 Bedrooms / 3 Baths

The Pleasant Hill offers a spectacular view of the lake or landscape from its expansive rear windows and rear deck. This popular open-concept plan is ideally suited for entertaining with its impressive entry, separate dressing room, and spacious great room with timbered cathedral ceiling and fireplace. Plus, the rear deck is easily accessed from either the great room or dining room areas. The master bedroom features a generous sized master bath large enough for a hot tub, double sink and shower, and spacious walk-in closet. The kitchen has a built-in pantry and convenient island. Upstairs, the loft provides a dramatic view of the great room below. Additional living space is available in the walkout basement. No matter what the season, this home puts you “in touch” with nature’s beauty

A full set of blueprints of this plan is available. Artist’s renderings and floor plans may differ slightly from actual blueprints.
